

DOWNLOAD INSTRUCTION

Templates for Inkjet Balloon

- [Download now](#) (MS Word templates download)
- Download method
 1. Select a template and click the download button from the Download page
 2. Templates will start up. Save as under a new name before editing the contents
 3. As you finish "Save as", close the browser. Then downloading will finish.
 4. To edit your template, select your template from the file you saved
 5. As you double click the file, MS Word will start. Then edit the data with your favorite photos, illustrations and letters. To save your contents, go to File on the Menu bar and Save it.
 6. After you finish editing, read the [enclosed instruction sheet](#) carefully then print with your inkjet printer.

Note:

1. The downloaded template may not work with older versions of MS Word because the templates are created in the document file (*.dot)
2. Check your manual or use help on MS Word
3. The Red frame on the Balloon template is the actual shape of the Inkjet Balloon. Use this red frame as a guide and delete the red frame before printing. If you do not delete the red frame the printer will print with the red frame on the inkjet balloon.
4. When you print on the back side of the balloon, do not lay out any design or letters outside the guide line on the template. The surface of the balloon and the valve of the balloon may get caught with ink.

Download for the Business Card software

- [Download now](#)
 1. Click on the icon above. (Free software)
 2. Follow the instructions from the downloaded software
 3. Click on Help to see how to use the software
